DETAILED ACTION

Allowable Subject Matter

Claims 1-39 are allowed. The following is an examiner's statement of reasons for allowance: As noted in the Amendment (especially at page 10-15), all claims recite the variations of terminating the session on the integration module. As particularly explained at page 11, handling the situation of an integration module is entirely different from other types of ending of sessions. The term "integration module" is to be interpreted in the usual fashion. This can be learned from the specification, such as at pages 1-3; among others, the case of a university intranet is stipulated as an example. In the context of the other limitations of the claims, the prior art did not teach or suggest the particular features of the claims.
